## PURE GOLD

Kannaway Pure Gold Hemp Oil, a full-spectrum, decarboxylated, and filtered CBD hemp oil, offers our customers a concentrated way to receive their cannabinoids every day. This is one of the most potent Kannaway's foodstuff - an excellent source of CBD, as well as essential vitamins, minerals, fatty acids, and other trace cannabinoids.

We utilize our proprietary extraction methods to extract the oil from the mature stalk of the plant. To ensure that our products will meet your standards, each batch of oil undergoes an advanced Triple Lab Tested™ process to verify that there are no solvents, heavy metals, or other potentially harmful materials.

We test and analyze our products from seed to shelf, ensuring that every natural product we offer is free of contaminants and of the highest quality possible.
